

## Streets and Drains Meeting

March 14, 2007

7:00 – 8:00 PM

### Members Present

Jim Blache    Harley Logsdon    Rich Burna

A. Bridge drainage repair: Additional discussions concerning bridge repair was conducted. Original drawings have been located. One copy is maintained in the Woods office another is held by the Streets & Drains Committee Chairperson

B. Committee has contacted Bold City Irrigation, C&S Irrigation, and Earth Works Nursery to provide bids on completing work recommended by Mr. Dwayne Merrill Engineering.

### C Additional projects discussed

1. Swale repair on Bent Pine Court and Mistletoe Place: It was agreed to accept the bids of Bold City Irrigation for repair of swales at these two locations. Cost \$11,780.00. These repairs will install catch basins, regrading of flow lines, sod replacement and installation of 6 inch pipes. Finance Committee estimates funds may be available in April for this project

2. Tree removal on Woods Drive East to assist in water runoff into storm sewer. Committee agreed to accept bid of Mr. Jim Szerba of \$5,000.00 to remove 35 pine trees to assist in keeping storm water drain from constantly being clogged with pine needles and branches. This project is being placed on hold indefinitely due to dollar constraints

3. Estimates to replace damaged sidewalk areas through the walking trail and main walkways was accomplished. Committee recommends awarding contract to Bell's Concrete of Atlantic Beach at a cost of \$9750.14. Finance Committee states funds may be available in July for this project

D. Recommend that the board approved fish barrier funds \$500.00 be released (October 2006 board meeting) so that we may upgrade pond drains.

1. Due to the large amount of algae being grown in our ponds it is time to restock with grass carp. Recommend that the board approve \$3000.00 to purchase these fish once the barriers are installed.

E. Next meeting scheduled for April 18, 2007 at 7:00 PM
